Summary

Detail-oriented Computer Science student with strong skills in Python, Java, and problem-solving. Experienced in building AI-based systems and secure applications. Published research in healthcare AI. Passionate about software development and cybersecurity.

Education

Noida International University, Greater Noida	2023 – 2027
B.Tech in Computer Science Engineering	
Ch.V.N.S Inter College, Kannauj, Uttar Pradesh	2023
Class XII (Intermediate) UP Board	
Ch.V.N.S Inter College, Kannauj, Uttar Pradesh	2021
Class X (High School) UP Board	

Technical Skills

Programming Languages: Python, Java, SQL, C
Frameworks & Tools: Flask, Git, GitHub
Core Concepts: Data Structures, Algorithms, DBMS, Operating Systems, OOP
Additional Skills: Problem Solving, Debugging, Cybersecurity Basics, API Integration

Project

Jarvis AI Assistant (Python)

[View Project](#)

- Developed a voice-enabled assistant for opening applications, web searches, and system tasks.
- Integrated speech recognition and text-to-speech modules for seamless interaction.
- Implemented automation features and offline functionality with a custom GUI.
- Automated 20+ daily tasks, significantly improving efficiency and response time.

Research Publication

Decentralized AI for Breast Cancer Triage

JSIAR, 2025

- Proposed a lightweight deep learning model for medical diagnosis in low-resource environments.
- Applied decision curve analysis to evaluate model performance and effectiveness.

Certifications

- Oracle Cloud Generative AI Professional (2025)
- Accenture Data Analytics Simulation (2025)
- IBM Cloud Computing / Cyber Resilience / Cybersecurity Fundamentals (2026)
- AI Fundamentals (Great Learning) & Data Analytics (Simplilearn)
- AI Impact Summit 2026 – Industry exposure to AI trends

Languages

English, Hindi, French(Beginner)

Achievements

- Published research paper in AI (Healthcare domain).
- Developed AI and automation-based projects using Python.
- Actively practicing Data Structures and Algorithms.
