SUMMARY

Detail-oriented Computer Science student with strong skills in Python, Java, and problem-solving. Experienced in building AI-based systems and secure applications. Published research in healthcare AI. Passionate about software development, cybersecurity, and scalable solutions.

EDUCATION

B.Tech in Computer Science Engineering 2023–2027
Noida International University, Greater Noida

Class XII (Intermediate) 2023
Ch.V.N.S Inter College, Kannauj, Uttar Pradesh

Class X (High School) 2021
Ch.V.N.S Inter College, Kannauj, Uttar Pradesh

RESEARCH PUBLICATION

Decentralized AI for Breast Cancer Triage JSIAR, 2025
• Proposed a lightweight deep learning model for medical diagnosis in low-resource environments.
• Applied decision curve analysis to evaluate model performance and effectiveness.

PROJECT

Jarvis-like AI Assistant (Python)  View Project
• Developed a voice-enabled virtual assistant capable of executing commands such as opening applications, searching the web, and performing system tasks.
• Integrated speech recognition and text-to-speech modules for seamless interaction.
• Implemented automation features and offline functionality to improve usability.
• Designed a simple GUI interface for enhanced user experience.
• Automated 20+ daily tasks, improving efficiency and response time.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, C
Frameworks & Tools: Flask, Git, GitHub
Core Concepts: Data Structures, Algorithms, DBMS, Operating Systems, OOP
Additional Skills: Problem Solving, Debugging, Cybersecurity Basics, API Integration

CERTIFICATIONS

- **Oracle Cloud Generative AI Professional (2025)** – Cloud AI and model deployment basics
- **Accenture Data Analytics Simulation (2025)** – Data cleaning, visualization, insights
- **IBM Cloud Computing Fundamentals (2026)** – IaaS, PaaS, SaaS concepts
- **IBM Cyber Resilience Foundations (2026)** – Backup, data protection, recovery
- **IBM Cybersecurity Fundamentals (2026)** – Security concepts, threats, risk management
- **AI Fundamentals - Great Learning** – Basics of ML and AI applications
- **Data Analytics - Simplilearn** – Visualization and data analysis basics
- **AI Impact Summit 2026** – Industry exposure to AI trends

ACHIEVEMENTS

- Published research paper in AI (Healthcare domain)
- Developed AI and automation-based projects using Python
- Actively practicing Data Structures and Algorithms
